DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-29 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-48 of U.S. Patent No. 6,759,948. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the patent and the application are nearly identical except for the presence of the railroad and railroad crossing in the patented claims, making the applied claims in effect broader than those already patented.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Fullerton et al [U.S. 6,031,862] uses one or more subcarriers to communicate information.

Richards et al [U.S. 6,300,903] comprises a plurality of impulse radios to track a person or object.

Fullerton et al [U.S. 6,430,208] is an impulse radio communications system.

Richards et al [U.S. 6,492,906] tracks and monitors people under house arrest.

Richards et al [U.S. 6,504,483] tracks and monitors animals.
